

ISOSHIELD HAND SANITISER, TOUCHPOINT CLEANER & PROTECTANT

Isoshield is a unique and powerful multi-application cleaner, sanitiser, and antimicrobial protectant that lasts for up to 28 days. Redefining protection against bacteria and germs, its revolutionary formulation of active ingredients makes it versatile for use on both hands and surfaces. Upon evaporation, Isoshield creates a durable bonded antimicrobial coating, offering sustained and proven protection against bacteria and germs. Can also be used as a speciality cleaner.
