

KEMSOL GENTEX FABRIC SOFTNER & SOUR 20L

Kemsol Gentex Fabric Softener & Sour in a convenient 20L container is a high-quality solution for softening fabrics and reducing static cling while neutralising alkalinity in the final rinse cycle. A high strength fabric softening agent designed to be used in automatic laundry systems. Its anti-static properties reduce "clinging" and linting in tumble dryers and increases flat work productivity. Low pH ensures effective reduction of any residual alkalinity. Ideal for use in commercial laundry facilities, hotels, and healthcare settings, Kemsol Gentex Fabric Softener & Sour is suitable for all types of fabrics, including cotton, polyester, and blends. Its advanced formula ensures that fabrics are left with a pleasant scent and a luxurious softness after each wash.
