

# QUAT HI FOAM 5L DG8 PH14

Quat Hi Foam in a convenient 5L container is a high-quality foam cleaner combined with a quaternary-based sanitiser. Specifically formulated to tackle tough grease and grime. With a pH level of 14, it's highly alkaline, making it ideal for heavy-duty cleaning tasks in industrial and commercial settings. Quat Hi Foam creates a rich foam that effectively clings to surfaces, allowing for longer contact time and better cleaning results. It's particularly suitable for cleaning kitchen equipment, floors, walls, and other surfaces where grease buildup is common.
