

# VIRUCLEAR - BROAD SPECTRUM SURFACE SANITISER 5L

Viruclear is designed to reduce the infectivity of coronaviruses, which can persist on surfaces like metal, glass, and plastic for up to 9 days. Suitable for commercial, industrial, healthcare, and public facilities, it utilizes a combination of Stabilised Hydrogen Peroxide (SHP), surfactants, and other additives to act as an oxidant. This formulation produces hydroxyl free radicals (OH) that attack essential components of microorganisms, including lipids, proteins, and DNA/RNA.

**SPECIFICATIONS:**  
5L/unit

**SOLD:**  
INDIVIDUALLY

**SKU:**  
KEM-FK-VIRUC05
