

SUPREM LIGHT, NORMAL

The Suprem Light Normal is designed to provide discreet and comfortable protection for individuals managing light to moderate urinary incontinence. With its slim profile and discreet design, it offers reliable absorption without adding bulk. The absorbent core quickly locks away moisture, keeping the skin dry and preventing leaks. Its breathable outer layer promotes airflow, reducing the risk of skin irritation. The anatomical shape and adhesive strip ensure a secure and comfortable fit, allowing for freedom of movement throughout the day.
