

SUPREM LIGHT, EXTRA

The Suprem Light Extra is crafted to provide effective and discreet protection for individuals managing moderate to heavy urinary incontinence. Its ultra-thin design offers maximum comfort and discretion without sacrificing absorbency. The absorbent core quickly locks away moisture, keeping the skin dry and minimising the risk of leaks and odours. The breathable outer layer enhances airflow, promoting skin health and reducing the likelihood of irritation. With its anatomical shape and adhesive strip, the Suprem Light Extra ensures a secure and comfortable fit, allowing for freedom of movement throughout the day.
