

PACIFIC BIOHAZARD YELLOW BAG 120L

Designed for safe and secure disposal of biohazardous waste, Pacific Biohazard Yellow Bags are available in both 120L and 240L sizes. These bags feature gusset seals to enhance containment and prevent leaks. Constructed from medium-density polyethylene (MDPE), they are highly durable and resistant to punctures, making them ideal for medical, dental, and laboratory environments. The bright yellow color and clearly printed biohazard symbol ensure easy identification and compliance with safety regulations, promoting a safer working environment.
