

# RUBBERMAID SLIM JIM CONTAINER WITH VENTING CHANNELS 60L

The Rubbermaid Commercial Slim Jim® containers with venting channels are crafted for optimal performance in confined spaces. These containers feature venting channels that make removing liners up to 80% easier. Equipped with four bag cinches for secure liner attachment and swift, knot-free changes, the containers also boast robust handles for improved control during lifting and emptying. The rib-strengthened rim prevents crushing, and the step design prevents jamming when nested. Crafted from top-quality commercial-grade materials, these containers ensure superior durability.
