

# SLIM JIM RECYCLING STATION STARTER KIT BASE

Begin your recycling setup with the Slim Jim Recycling Station Starter Kit which includes an 87L bin, a grey outer lid and connector. Seamlessly combining an attractive front-of-house look with efficient back-of-house functionality, this 87L bin provides intuitive sorting options and customisable waste stream labels. Select a colour and waste stream label to provide better waste stream visibility for your facility needs. All components snap in place without the use of hardware for ease of use.
