

RUBBERMAID 45.7 CM MICROFIBER HIGH ABSORBENCY MOP, BLUE

HYGEN™ Microfiber stands as a trusted solution, proven to eliminate 99.7% or more of tested viruses and bacteria, even with water alone*. Engineered with superior microfiber and integrated scrubber technology, it effectively curbs cross-transmission and diminishes the risk of healthcare-associated infections. Capable of addressing substantial spills, it absorbs up to 709.7ml of liquid. The patented zig-zag design, crafted from polyester and polypropylene, enhances scrubbing power, while its optimised face material construction strikes a balance between drag force and cleaning efficacy, ensuring effortless cleaning. Tested to endure 200 launderings to CDC guidelines in hot water (71.1°C) with chlorine bleach, it guarantees lasting performance and reliability.
