

RUBBERMAID 121.9CM MICROFIBRE FRINGED HALL DUST PAD

The HYGEN™ Microfiber Dust Pads with Fringe are strategically crafted to enhance the cleanliness and safety of healthcare facilities, mitigating the risk of costly Healthcare-Associated Infections (HAIs). Featuring high-quality, 16-split microfiber, these pads deliver a superior clean by efficiently trapping and locking away dust, dirt, and debris. The patented zig-zag design, composed of polyester, adds scrubbing power to the cleaning process. Fringed edges significantly increase the surface area, resulting in faster and more productive cleaning. The industry-leading loop back, made of 100% polyester, ensures secure attachment to the frame even after laundering.
