

# RUBBERMAID 45.7 CM QUICK-CONNECT WET/DRY FRAME

The HYGEN™ Quick-Connect Frames boast a flat profile designed for easy maneuvering under furniture and equipment, enhancing cleaning efficiency. Their trapezoidal shape excels in corners and hard-to-reach areas, providing access to high spaces with ease. Crafted from lightweight aluminum, these frames prioritize improved productivity and safety in MRI rooms. A nylon swivel joint allows flexible maneuvering, while rounded plastic end caps safeguard walls and furniture. The frames feature a one-step connecting mechanism, speeding up mop assembly and changeover, and their flat profile ensures a sanitary and easy-to-clean design.
