

RUBBERMAID 61.2CM QUICK-CONNECT SQUEEGEE FRAME

The HYGEN™ Quick-Connect Frames feature a flat profile that effortlessly slides under furniture and equipment. With a unique pull-type squeegee for water and debris collection, these frames are constructed from lightweight aluminum, ensuring improved productivity and safety for use in MRI rooms. The frames also include a nylon swivel joint for flexible maneuvering, rounded plastic end caps for wall and furniture protection, and a one-step connecting mechanism that speeds up mop assembly and changeover.
