

# RUBBERMAID 91CM QUICK-CONNECT HALL DUSTING FRAME

The HYGEN™ Quick-Connect Frames have a flat profile that easily slides under furniture and equipment. The trapezoidal shape enhances cleaning in corners and other hard-to-reach areas, reaching high spaces with ease. Constructed from lightweight aluminum for improved productivity, these frames are safe for use in MRI rooms. The frames feature a nylon swivel joint for flexible maneuvering, rounded plastic end caps for wall and furniture protection, and a one-step connecting mechanism that speeds up mop assembly and changeover. The flat frame profile is sanitary and easy to clean.
