

RUBBERMAID MICROFIBER GENERAL PURPOSE CLOTH, RED

HYGEN™ Microfiber, scientifically proven to eliminate 99.9% of tested viruses and bacteria with water alone, sets a new standard in cleaning efficacy. This innovative microfiber, incorporating built-in scrubber technology, outperforms traditional methods by cleaning 25% better than conventional microfiber and cotton cloths. The patented zig-zag design, crafted from durable polyester, provides additional scrubbing power. With an industry-leading lifespan of up to 500 launderings and up to 200 with bleach, this 16-split microfiber ensures a superior clean with each use, penetrating deeper for exceptional results.
