

RUBBERMAID MICROFIBRE GLASS CLOTH

HYGEN™ Mirror and Glass Cloths, crafted with premium microfiber construction, ensure a scratch and lint-free clean on glass or mirrored surfaces. With a quality weave and double-finished edges, these cloths exhibit exceptional durability, withstanding up to 500 launderings, including up to 200 launderings with bleach. They contribute to increased operational efficiencies and worker well-being by reducing water and chemical usage. Additionally, these cloths are certified to tolerate CDC hot and cold water laundering requirements, maintaining shape and providing added durability through high-quality stitching.
