

RUBBERMAID 147CM QUICK-CONNECT HANDLE

HYGEN™ Quick-Connect handles and poles enhance cleaning efficiency across various facility areas, effortlessly reaching high spaces. The unique connection mechanism facilitates quick and easy tool exchange, saving valuable time. Constructed from lightweight aluminum, these handles ensure improved productivity and are safe for use in MRI rooms. The one-step connecting mechanism speeds up mop assembly and changeover, while the user-friendly grip enhances handle comfort.

SPECIFICATIONS:
Quick-Connect Adapter (FGQ70100BK00) allows use of Quick-Connect handles and poles with any standard threaded tool
