

SEKO DISHWASHER PUMP WAREDOSE 35 LL WITH PROBE

Seko Dishwasher Pump Waredose 35 LL with Probe, a high-performance dosing solution designed specifically for commercial dishwashing applications. With a capacity of 35 liters per hour, the Waredose pump ensures precise and consistent dosing of chemicals required for effective dishwashing. Equipped with a probe, this system accurately monitors the chemical concentration in the wash water, allowing for real-time adjustments to ensure optimal cleaning results. Ideal for use in busy commercial kitchens, restaurants, and food service establishments, the Seko Dishwasher Pump Waredose 35 LL with Probe delivers reliable performance and efficiency.
