

PACIFIC TRIM TOWEL PREMIUM TAD - FSC

The Pacific Trim Towel Premium TAD - FSC is a high-quality hand towel made using advanced Through-Air Drying (TAD) technology, delivering superior absorbency, strength, and softness. Certified by the Forest Stewardship Council (FSC), this towel is sustainably produced, ensuring it meets the highest environmental standards. The innovative TAD process creates a lightweight, highly absorbent structure that quickly and efficiently soaks up moisture while remaining durable and comfortable to use. Designed for high-traffic environments, the Pacific Trim Towel Premium TAD combines premium performance with eco-consciousness, making it an excellent choice for businesses focused on both hygiene and sustainability.
